

AUDIO RECORDERS

Pen Listening Device

A working executive ballpoint pen with built-in sound-activated audio recording.

Overview

The Pen Listening Device records clear MP3 audio while working as a real ballpoint pen. Sound activation automatically starts recording when sound is detected and pauses in silence, saving battery and storage. It holds up to 144 hours of audio in 8GB of memory and stays ready for up to 30 days in standby.

What's in the box

- Pen Listening Device
- USB charging cable
- Quick start guide
- Replacement ink cartridge

Key features

- Sound activation technology
- 8GB built-in memory
- Up to 144 hours recording
- 30-day standby
- Functional ballpoint pen
- Premium black finish
- Silent operation

Specifications

Dimensions	14.3 × 133.5 mm
Weight	28.5 g
Memory	8GB
Max recording	144 hours
Audio format	MP3, 128kbps
Battery	19 hours continuous / 30 days standby
Charging	2 hours via USB

How to use

1

Charge fully

Connect the pen to a USB port with the supplied cable and charge for 2 hours before first use.

2

Turn on sound activation

Follow the quick start guide to switch the pen into sound-activated recording. Once on, it records whenever sound is detected and pauses in silence, with no buttons to press.

3

Position the pen

Clip it in a shirt pocket or place it on the desk near the conversation, with the microphone end uncovered.

4**Use it as a pen**

Write normally. The pen works as a standard ballpoint while recording.

5**Retrieve your recordings**

Connect the pen to your computer with the USB cable to open, play and copy your MP3 files.

6**Replace the ink**

When the ink runs low, swap in the included replacement cartridge.

For exact button and switch positions, see the manual or quick start guide supplied with your device.

Tips for best results

- Keep the pen within a few metres of the speakers for the clearest audio.
- Avoid placing it next to fans, air vents or other constant noise, which can keep it recording.
- Recharge after long sessions so it's ready with the full 30-day standby.
- Copy files off regularly to keep space free.

Care and safety

- Keep the pen dry; it is not waterproof.
- Do not drop it, as this can damage the recorder inside.
- Charge only with a standard USB port or charger.
- Do not open the recording section.

Use responsibly

In Australia, the laws on recording conversations differ between states and territories. In some places it is an offence to record a private conversation without the consent of everyone taking part, and recording a conversation you are not part of is generally prohibited. Check the surveillance device laws where you live before using this device, and use it only for lawful purposes.
